

Are your students looking for placements in the UK?

Thank you for your interest in Placement UK. I am pleased to attach a copy of our literature for your information and reference. In it you will find details of the service Placement UK offers for students and universities.

We place hundreds of European Students into UK businesses every year on work placements/internships. We offer universities and students an easy, secure and free way to internationalisation, and undergraduates gain essential work experience to complete their Degree or Masters.

Here are some key benefits for students and universities

- All our placements are paid
- Placements are available all year round
- Apply online – easy and quick
- New opportunities every week
- **OUR SERVICE IS FREE FOR STUDENTS AND UNIVERSITIES**

I have attached to this email an interesting work placement opportunity for your students. If they are interested in this offer (reference LDE 17) they can apply online on our website.

No leaflet will be comprehensive enough to tell you everything you want to know and it is normal to have doubts or concerns. Please visit our website, www.placement-uk.com for more information. The FAQ section in the University and Student Areas is designed to address most queries, or you can always contact us by phone or email and we will be pleased to tell you more. Our contact details are below and on the literature.
